Astral Dreamscape Manipulation

This treatise concerns the reptilian's manipulation of the Human Astral Dreamscape for the express purpose of promoting particular behaviors within the abductee. This subject deals with issues regarding sexuality, aggression, physical, emotional and psychological stress. This treatise will provide the most accurate information regarding reptilian operational methods that has ever been presented in history.

Astral Dreamscape Manipulation is a very pervasive form of behavior modification that most abductees experience at one time or another. Sadly, most abductees are oblivious to the fact that this is an aspect of behavior modification that is routinely practiced by the reptilians upon certain categories of abductees. Most disturbing, this type of manipulation is being perpetrated upon children. Doubtless the information contained in this treatise will generate a firestorm of controversy. I could care less.

Again, my writings are meant to be read by abductees with a Heightened Sense of Awareness. The manipulated muppets can go off and oscillate at a higher frequency for all I care. This treatise isn't meant for them. Their reptilian "familiar" would never let them read this and even if their familiar let them read it, the internet group list moderators and hosted abductee support group facilitators would not let them read it. So much for free will and choice. Just some more hive consciousness cliché's.

The Drac-reptilian hive consciousness will simply not allow the abductees under their control to read this caliber of information. This is unfortunate since many with reptilian DNA are going through changes at this time. Their reptilian familiar are always on hand to ensure that the reptilian hybrids develop along the lines the reptilians want them too. Even if a reptilian hybrid baby was adopted and raised by warm loving human parents, his or her reptilian familiar will sooner or later make their presence felt and will try to turn that child into an obnoxious obscene "human being."

One of the principal methods of conditioning and behavior modification is through astral dreamscape manipulation. The Drac-reptilian hive consciousness will strive at all hazards to keep "their" hybrids under their control.

"A system that does not allow dissent also ignores dissenting information."

A quote by General Markus Wolf, the former director for East German Foreign Intelligence.

He might as well be describing the Drac-reptilian control over humans in general and reptilian hybrids in particular. The ironic thing is many of these hybrid "starseeds" always brag about how special and spiritually evolved they are never realizing that they never had a choice in the matter. Their overwhelming contempt and arrogance reveals them for what they are not to mention some of the perverted practices in their private lives.

Some have slipped through the cracks however. Some of my closest colleagues are reptilian hybrids that didn't allow themselves to be corrupted from within. It just shows that it is the quality of the SOUL that counts. Not the genetics.

I will describe how reptilians and reptilian host can invade the dreamscape and sexually assault humans.

The Reptilians Hold the Tactical High Ground

The reptilians hold the tactical "High Ground" in the astral dreamscape by dint of the fact that most humans are not lucid dreamers and the reptilians are "at home" in the astral dreamscape. Besides being parapsychical entities and mesmerizers par excellence, reptilians can shape and influence a dreamscape experience to suit their devious and sordid ends. Moreover the reptilians can further diminish what little lucidity and awareness humans may have in the dreamscape. The reptilians are intimately familiar with the way the Human Mind works and in particular how to create certain imagery or set the mood of a "dream."

With their psychic third eye vision they quickly do an "experience scan" in your memory banks prior to the abduction or dreamscape manipulation. Acting upon this pre-abduction intelligence, the reptilian may appear to the abductee as someone he or she had a crush on back in high school. At the same time her libido is revved up artificially by the reptilians.

Not only are they able to manipulate a human's erogenous zones but they are adept at manipulating the human endocrine system. Remember: Brain Wave function is regulated and controlled by certain hormones and alkaloids released into the brain and other parts of the body by certain glands.

Human Security Services are already using sonic waves to simulate particular brain wave patterns which trigger the release of hormones and alkaloids by particular glands nothing simpler. Humans can be made to have greater psi abilities merely by manipulating their brain waves and endocrine system. And all these New Age La Dee Dahs and Muppets think they have "developed" psychic abilities because of their contacts with their alien benefactors. As Barbara Bartholic points out, the reptilians know EVERYTHING about us.

They can manifest a credible simulation of a home from your childhood in order to set a certain tone, mood or feeling of familiarity. For example there can be two or more "human extras" standing around in your dreamscape childhood home. These "humans" are really reptilians assuming human disguises. (they wished they looked human) They will use familiar people in your dreamscape to lull you into a sense of security. Images of friends and relatives can be projected onto our dreamscape the same way electronic countermeasure pods on certain aircraft can project non-existent "bogies" onto the radar screens of the enemy in order to confuse or distract them from what is really going on. There are certain cues to watch for in the astral dreamscape.

Sometimes you can tell the "humans" are reptilians because there may be two that are about the same size and wearing the same or similar clothes as compared to a "leader" who may be slightly taller and always seems to be standing by your side or in front of you.

Often times they use the classic "interrogation" technique where they will sit directly across a table from the abductee and question them about their beliefs and propagandize them with the Reptilian Credo of Enlightenment through Physical and Spiritual Degradation. They can appear as humans, as military personnel, cloaked in robes or as full on reptilians. The lesser ranking reptilians usually stand behind the seated reptilian.

I along with a close friend who lives in the high desert was interrogated by three reptilians posing as high-ranking human military personnel. The "officers" were "seated" alongside each other in a high dais. They were flanked on one side by the federal flag with the yellow "admiralty maritime" braid and on the other side by some other flag. They kept "yelling" at us telepathically and directed most of their anger at me. I remember at one point turning to my friend and "thinking" to her: "Remember this. This is real, it's not a dream." Later we compared notes on the telephone. Based on similar accounts I have heard from other abductees and from what I remember from this particular experience, the entities were giving the impression of being "seated" behind a high dais as a means to conceal their tremendous height which is always a giveaway.

The leaders are usually conducting most of the psychic monologue to the abductee whereas the others just grunt or growl every now and then usually with a severe grimace or scowl on their faces. It's so difficult for them to conceal their utter contempt for humans.

We must learn to recognize when a dream is our own and when it is a "Stage-managed dream." The reptilians strive to immerse us in various dramas or scenarios which are meant to hold the attention of the percipient while at the same time weave in imagery and symbolism which is meant to promote certain behaviors and beliefs of which I will discuss in more detail later.

There is also a "filthiness factor" associated with the reptilians even though you may not see them in the dreamscape. The atmosphere seems to be saturated with their foul energy. What appears to be feces may be scattered on the floors. Bathroom or locker room scenes are typified by their filthiness. Large cockroaches and other bugs may be seen scurrying around in the astral dreamscape. Large Rats are often seen in a dreamscape polluted by the reptilians. These are just a few of the things that are described again and again in the astral dreamscape which create an atmosphere of foul malevolence whenever the reptilians are attempting to manipulate the human's perceptions and emotions. It is altogether apt if you ask me. Vermin such as huge cockroaches and rodents are symbolic of the putrid essence of the reptilians, sewer scum that they are. Indeed they intentionally use these types of illusions precisely because of the natural revulsion and fear it engenders within decent human beings. Tip there.

Human Awareness in the dreamscape suffers from what military fighter pilots refer to as "Cognitive Saturation." Cognitive Saturation occurs when a pilot of a high speed jet aircraft perceives too much visual stimuli at one time and in such a fashion as to not be able to properly control his speeding aircraft for a few critical seconds.

There may have been too many physical features that he perceived through his cockpit and Heads Up Display (HUD) at one time. Mountains, clouds, shimmering bodies of water, other aircraft, jet exhaust, flocks of birds, any or all of the above can contribute to momentarily flooding the visual senses of a human pilot. Add to this the stress of flying a high performance aircraft in realistic Air Combat Maneuvering (ACM) training or in actual air to air combat and the margin for error is very slim indeed. Many pilots wind up dying in air crashes as a result of experiencing Cognitive Saturation for only a few seconds.

(The American public for various reasons is generally ignorant of the frequent air crashes suffered by the military. Some of the military's aircraft should have been retired DECADES ago.)

The reader must remember the importance of retaining conscious awareness during our dream life. We spend fully 1/3rd of our life asleep.

No self disgusting reptilian or mind controller would allow such an opportunity to slip by without at least attempting to manipulate The Mind, Body and Soul of a sleeping human that the reptilians and

mind controllers want to control. Each abductee has a certain degree of usefulness to the reptilians, some more than others.

As is the case with professional athletes in such high speed sporting competitions as Downhill Skiing or Race car driving WE MUST BE ABLE TO SLOW DOWN "TIME" WITH OUR EYES I.E. REGULATE THE INFLUX OF VISUAL STIMULI AND FOCUS OUR DEPTH PERCEPTION WITHIN THE CONFINES OF THE ASTRAL DREAMSCAPE.

We've all heard accounts of great athletes describing the sensation of everything and everyone around them being in "slow motion" while they were performing some acrobatic feat in a football game or other athletic competition. They are accurately describing their ability to screen out extraneous or unnecessary visual stimuli and FOCUS THEIR WILL AND CONSCIOUS AWARENESS UPON THE IMMEDIATE TASK AT HAND.

Military Jet fighter planes have a very crowded "Heads Up Display" full of various computer graphics running simultaneously on their windshield. They can unconsciously block out all the unwanted data appearing on their screen and just focus their WILL and their Conscious Awareness on the data they want and the "bogey" they are after.

Keep all this in mind because the reptilians and their minions are masters of creating illusions, assuming disguises and dimming the awareness of human beings in or out of the astral dreamscape. In the dreamscape the reptilians can heighten the anxiety level of the abductee or promote mental sluggishness just as easily as if they were spinning the dial on an FM radio.

Reptilian Illusions in the Astral Dreamscape

The reptilians utilize illusion and disguises very frequently during physical abductions and in the astral dreamscape. Reptilians will often disguise themselves as old boyfriends, famous movie stars, musical artist etc. for the express purpose of raping human females. To provide an illustration of the ease in which the reptilians utilize illusions let us examine in close detail one of their favorite operational schemes.

Reptilians often bring human females to a place that has warm pools of water or what appear to be hot tubs or Jacuzzis. Human women are mass raped in these wading pool/hot tub environments. Artificial beach settings have been described by female abductees.

The critical reasoning faculty of the women has been switched off. It doesn't occur to them to question the possibility or likelihood that they are having a sexual encounter with a famous singer or actor. It's just an operational illusion that the reptilian is utilizing at the moment. Unless the woman wakes up with vaginal or anal soreness, involuntary discharges, bleeding, or a urinary tract infection, the woman may just brush off the memory as a strange erotic dream. Even then she may not associate the symptoms with the strange dream, if indeed she can even remember the dream!

Again we can borrow a term from military fighter pilots. In our example above, the abductee has lost "Situational Awareness" in the astral dreamscape because of the various and sundry methods of deception and manipulation and have become fair game for the reptilians.

It must be understood by the reader that there is PHYSICALITY in the astral dreamscape. Notice how a reptilian can seduce a woman or sodomize a man through layers of bed sheets, comforters and night clothes. They densify only those parts of their anatomy where and when they need to. They can be invisible in the visible spectrum and yet conduct forcible rape or sodomy that is a very real physical traumatic event to the human. The woman may see only an illusion of a famous entertainer or musical

artist. There have been numerous cases of raping reptilians disguising themselves as Bruce Springsteen, Sting from the police, Tom Cruise and Tommy Lee Jones. Even Michael Jackson has been reported by credible female observers! On the other hand some woman may only see a close up of a hideous reptilian face and not be able to move or utter a sound.

And all this can go on with Tarzan lying sound asleep or otherwise immobilized and completely incapable of helping his significant other that is being sexually assaulted right next to him in the bed. If he's been properly programmed he will be of no help or support to his Lady and indeed can be quite abusive if that is what the reptilians want. In short Tarzan is a complete NO LOAD. Emotionally unavailable and even irritable when the subject of these "nightmares" and "experiences" are brought up, Tarzan becomes part of the problem instead of being a part of the solution.

Various Purposes for Dreamscape Manipulation

Promoting fear is one of the most common and pervasive forms of reptilian dreamscape manipulation. This is ironic when you consider how often the Hive Consciousness tries to compel humans to "get over their fear."

From the standpoint of what I call "Psychic Security" it is dangerous and reckless to send photographs by mail or internet to people who may be reptilian hosts. The reptilian host can detect the residual energy signature in the photograph and subsequently develop a psychic link with the person in the photo. In occultic circles, this is known as an "Object Link."

If the abductee is in e-mail or telephonic communications with this host they are actually making it easier for the reptilian host to enter their dreamscape and perpetrate all manner of vile and perverted actions.

I once had the energy drained out of me after listening to a ten minute message on my phone machine left by an angry and frustrated female reptilian host that I had identified years ago. For some reason I make reptilian host very agitated. The telephone and the internet are merely electromagnetic conduits and the reptilians make full use of this when trying to manipulate and control humans. A common ploy is to have manipulated muppet abductees call up the hard core spiritual warrior abductees on the phone several times a day to waste their time and drain them of energy.

Astral Sex is physical sex. Although it may sound like a paradox, it isn't if you understand how frequency and resonance works. Many women wake up in the morning after being raped by a reptilian feeling soreness in their vaginas and sometimes in their rectums as well. The entire sordid experience may seem to the female abductee as merely an unusually erotic "dream" despite the physical discomfort. If that isn't mind control I don't know what is.

I call a drac or reptilian human-hybrid that frequently indulges in astral rape a "Serial Rapetoid." There are a number of serial rapetoids active in the ufo community.

These kinds of unwanted nocturnal rapes can create much fear and trepidation and be seriously disruptive of normal sleep patterns. Other women develop effective countermeasures and have even been known to exact some measure of revenge against these reptilian hosts.

Fear is also promoted through a seemingly endless stream of "mind games" perpetrated to confuse or intimidate the female abductee going through these astral rapes. The reptilian may create dreamscape scenarios where he lurks in the background and observes as the human goes through one manipulated drama after another. The reptilians like to stand off to the side and laugh amongst themselves at the psychodramas they are putting the abductee through. The reptilians literally feed off of our fear and

anxiety which is reason enough for them to create these types of dreamscape scenarios.

Promiscuity is also programmed into abductees including pre-teens. The reptilians can turn up the sexual arousal mechanism in humans with little or no effort. The sexual arousal mechanism is activated within humans while at the same time, the human finds himself or herself in an "erotic" dream.

Through telepathic suggestion and perceptual manipulation the abductee is led into a scenario where they are encouraged whilst in this highly aroused state, to engage in sexual activity. The sexual activity the abductee is led into may involve reptilians, grays, alien-human hybrids and in some cases with other abductees. There are numerous variations of this type of scenario.

These erotic dreamscape manipulations can occur for several nights running. Or they can occur intermittently over a protracted period of time lasting weeks, months and years.

Not only will the abductee have these kinds of erotic dreams and act upon them in the dreamscape but also he or she will receive erotic mental imagery even during their waking hours. Telepathic suggestions will be utilized to encourage the abductee to engage in sexual intercourse. This particular form of conditioning is particularly effective on women.

A human female that has been conditioned in this fashion can become extremely promiscuous for an extended period of time. Needless to say, this creates a situation where the woman can be set up in a series of self-destructive negative relationships full of high drama and conflict. Not only will the reptilians feed off the anxiety and stress engendered within the woman but they will also feed off the sexual energy generated during the woman's many sexual experiences with different partners.

I know of cases where young pre-adolescent girls have undergone this kind of astral dreamscape manipulation. Night after night they are having "dreams" involving sexual activity to the point where they become preoccupied with thoughts of sex at all times of the day. They may begin to masturbate to such an extent that their parents notice this change in their behavior. They may even ask their parents questions involving sexuality.

There have been instances when young girls undergoing this kind of manipulation have been known to hide beneath the bed of their parents hoping that the latter will engage in sexual intercourse. The young girl may become an exhibitionist, walking around the house nude in front of her siblings.

We are talking simple cause and effect here. Since the reptilians have the ability to stimulate the erogenous zones of even pre-adolescent girls and bombard the mind with erotic imagery, the young girl in our example is incapable of doing anything except act out all the feelings and implanted suggestions she is given by her reptilian handlers. In a situation such as I have just described, it is incumbent upon the mother to be a source of guidance and support to the child who is undergoing these evil manipulations by the reptilians.

Part 2

Violence Promoted Within the Dreamscape

Violent and sociopathic behaviors can also be promoted through astral dreamscape manipulation. Children, teenagers and adults can be shown images of blood and gore in the astral dreamscape and can even be compelled to participate in violent scenarios in which the abductee is made to either watch or take part in horrific acts of violence.

The reptilians can use the image of a child's parents whilst they perpetrate acts of physical and sexual abuse upon the child. (In case the reader is wondering, the descriptions of psychosexual abuse given by the children has been obtained by parents with a heightened sense of awareness about the abduction syndrome. The reptilians typically mete out their reprisals upon the children of abductees who are actively resisting them.) Later I will discuss in more detail how sexuality can be manipulated to the extent of altering the sexual orientation of certain humans.

Regarding violence as a conditioned response, I know personally an adult male who was made to kill his wife and children again and again in the astral dreamscape. The killings would always be done in a gory vicious fashion. His waking hours were no relief either as "voices in his head" urged him to act on the "fantasies" he'd been having and murder his entire family. He told me that he could understand how someone could be made to kill after they had been subjected to this type of treatment for awhile.

Violent tendencies within males can be fostered by this type of manipulation. It is especially useful if the male is the partner of a female abductee that the reptilians want to keep in a state of physical and sexual degradation. The reptilians will use Tarzan as their proxy handler. Often times, if Tarzan is hosted himself or if he is being plied with deviant erotic mental imagery, he will begin to manifest deviant sexual desires including acting out fantasies of bondage and discipline upon his hapless girlfriend or wife. Vulgarity, sexual perversion and the need to control others are hallmarks of the reptilian influence upon human beings.

Violent tendencies can also be promoted within male abductees undergoing the "Alien Love Bite." Barbara Bartholic and Eve Lorgen have made in depth studies of this form of alien manipulation.

During the latter stages of the Love Bite manipulation, a male abductee can become enraged at the female he has become obsessed with. The aliens will send images into the mind of the male abductee of his targeted love bite partner having sexual intercourse with another man. It is as if a videotape is playing in the mind of the male abductee which is designed to drive him crazy with rage.

Abductees can be made to eat what appears to be raw meat, bloody "pancakes" or even human body parts such as hands in the astral dreamscape. Abductees have been known to suffer extreme nausea lasting for weeks or months after being subjected to this kind of manipulation. I cannot stress enough the importance of never eating or drinking anything in the astral dreamscape.

Sexual Conditioning of Abductees

The final part of this treatise deals with the most controversial aspect of the reptilian astral dreamscape manipulation of humans. This is the conditioning of a certain percentage of humans towards adopting homosexuality as well as Sadomasochism and its related behaviors as an alternative lifestyle. Pedophilism can even be programmed into the abductee via this dreamscape manipulation.

Here comes the disclaimer and I'd like the reader to read this part twice so there is no misunderstanding.

I AM NOT SAYING THAT ALL HOMOSEXUALS, BISEXUALS, SADOMASOCHIST OR BONDAGE AND DISCIPLINE AFFICIANADOS WERE CONDITIONED TO INDULGE IN THESE ACTIVITIES BECAUSE OF THE REPTILIANS. I AM MERELY SAYING THAT A CERTAIN PERCENTAGE OF HUMANS ARE SUBJECTED BY THE REPTILIANS TO A FORM OF ASTRAL DREAMSCAPE AND SEXUAL MANIPULATION WHICH HAS FOSTERED AN INCLINATION TOWARDS ADOPTING THESE ALTERNATIVE LIFESTYLES. LIKEWISE CERTAIN ABDUCTEES CAN BE MANIPULATED INTO DEVELOPING A PROPENSITY TOWARDS PEDOPHILISM. BY NO MEANS ARE THESE TACTICS EFFECTIVE AGAINST

ALL ABDUCTEES.

I will now describe how this is done. I mentioned earlier how the reptilians are able to "turn up" the sexual arousal mechanism in humans. This is an absolutely critical point to understand. Another is the fact that the reptilians and their alien vassals can ensure that an abductee remain single and celibate for extended periods of time. The reptilians have been known to alter the olfactory senses of female abductees to such an extent that they will react negatively and be immediately repulsed by the scent of human male pheromones.

By the same token a male abductee that has had his endocrine system altered can emit pheromones that will literally repel women. This is not conjecture or speculation. Thus we have male abductees who can have their libido manipulated at will by the reptilians and yet be unwittingly forced into extended periods of celibacy. This sets the stage for the astral dreamscape manipulations which may lead to this person's conscious or unconscious adoption of AN alternative lifestyle.

A male abductee will find himself in an astral dreamscape environment that is highly charged with sexual energy. He himself becomes aroused as the reptilians manipulate his libido. The male abductee will find himself in a bedroom setting. Oftentimes the bed will be large and circular. There may be one or two beautiful women lying on the end.

As he approaches the women, they begin to assume very seductive postures and positions on the bed. The male will find himself extremely aroused. He may begin to hear telepathic suggestions encouraging him to engage in intercourse with one of the women.

He will position himself so as to penetrate the woman. AT EXACTLY THE SAME INSTANT HE PENETRATES THE WOMAN, HE FEELS AN INTENSE PAIN IN HIS ANUS AS A REPTILIAN BEING SODOMIZES HIM. At this point the male abductee often times wakes up from the pain he feels. He feels an icky tingling energy in the bedroom and feels this energy throughout his whole body as if it had tried to penetrate his very being, but is now exiting his body. The icky tingly energy seems to hover directly over him but gradually begins to dissipate and finally goes away.

He may ponder and reflect on what just occurred. His pain and discomfort is real enough but he may not be able to relate his discomfort to the unusual erotic "dream" he just had. Soon after, the male abductee has another dream. This time he may be walking around in a large sparsely furnished house with a number of rooms. He may wander into a living room area and see a very attractive woman wearing lingerie sitting on a lazy boy lounge chair. There may be other people wandering around the house too. The male begins to feel aroused and the scantily clad woman beckons him to engage in sexual intercourse but since there are others walking around the house, the male is reluctant to engage in intercourse.

Finally he submits to the entreaties of the sexy woman and begins to kiss and caress her. She adopts a sexually provocative pose on the floor or on the lazy boy. He positions himself to have sex with the "woman" (as we shall see later, often times these women are not really women at all) and once again, the moment he penetrates her vagina, he feels intense pain in his anus as he himself is penetrated by a reptilian. The sodomizing reptilian is often times invisible during these activities.

Once again the male abductee immediately wakes up. Again, the room and his body are saturated with this icky tingly energy which seems to ooze out of his own pores. This time he is concerned because this is the second time this has happened to him. He knows that something is going on but can't figure out exactly what it is. He is concerned but he also begins to experience certain feelings and emotions during his waking hours.

He may begin to wonder what it feels like to engage in homosexual activity but quickly dismisses the thought from his mind. He may have "random" thoughts enter into his mind about the nature of pain and how it might be transformed into pleasure if a method is developed or introduced that will bridge the gap between the two. Of course, these are not HIS ideas. His reptilian "Familiars" are telepathically suggesting this to him. In a synchronistic fashion he may be exposed to certain types of literature or film which endorses or seemingly legitimizes in his mind this kind of lifestyle.

Soon the male abductee finds himself in another "dream." He once again finds himself in an erotic dreamscape with one or more willing partners. The women once again adopt certain positions to facilitate sexual intercourse. By now, the abductee, because of his previous experiences in the astral dreamscape which he can now remember, has consciously or unconsciously associated Heterosexual Intercourse WITH PAIN because of what the reptilians have done to him in the past each time he attempted heterosexual intercourse. He may be reluctant to engage in sexual intercourse for fear of the possible consequences and resultant pain that heterosexual intercourse engenders. This is an absolutely essential point to understand about all this: The concept of Heterosexual Intercourse has become associated with PAIN in the mind of the male abductee being thus manipulated.

Now the male abductee is reluctant to engage in heterosexual intercourse. However he is still in a very aroused state of being. The women are there and he is being telepathically encouraged to engage in sexual activity with them. So the male abductee arrives at a compromise. Instead of engaging in coitus with the women he decides to penetrate their orifices with his fingers.

So he penetrates the vagina of one of the women with his fingers and again, he feels simultaneous pain in his anus! He quickly withdraws his fingers and realizes that the entity probing him from behind has simultaneously withdrawn its member from his anus. He soon realizes that he can regulate the rate of penetration and the depth of penetration into his own anus merely by inserting his fingers in the vagina of the woman. His actions with the woman seem to synchronize with the anal probing that he is experiencing. Meanwhile he is receiving telepathic suggestions encouraging him to go along with it. "Go ahead, you know you really want to do it" or "its just a dream, go ahead, nothing will happen to you," or "it doesn't hurt that bad, keep doing it, it gets better."

He may continue in this fashion for a short while but then he stops, either out of revulsion or because he has reached a certain pain threshold.

The next time he finds himself in the dreamscape, he may find himself with women again but during the activity, one or all of the women "shapeshift" into a hermaphrodite type being i.e. one with both male and female sexual organs.

This "shapeshift" occurs whilst he is in a highly aroused state of being. This metamorphosis may occur as he is inserting his fingers into the vagina or anus of the "woman." Sometimes the male abductee may be momentarily taken aback by this sudden transformation but due to the conditioning both in the dreamscape and the telepathic suggestions and erotic homosexual imagery in his mind's eye during normal waking consciousness, he may decide to continue engaging in sexual activity. His reptilian familiars will still be encouraging him to continue this activity and will even encourage him to try this, that or the other sexual activity with the hermaphrodite.

Soon, whether it's this dreamscape experience or the next, the hermaphrodites may completely shapeshift into males. The reptilian sodomizing the male abductee may also materialize in the visual spectrum but as a man instead of a reptilian. That will come later if they so choose.

All of this has taken place over a period of weeks, months and years. By now the male has lost any interest in heterosexual intercourse. If the reptilians intend to turn this individual into a practicing

sado-masochist/bondage and discipline practitioner they will begin to emphasize these kinds of activities within the astral dreamscape and in the mental imagery he receives during his conscious waking hours. The male abductee may be sodomized quite violently or he may witness other male abductees violently sodomized. Reptilians have literally been described wearing studded leather jackets in some of these dreamscape scenarios.

It must be understood by the reader that reptilians, despite all the propaganda espoused by their hive consciousness muppets, are very much mired in the lower chakras of existence. These are beings that are absolutely driven to sexually control humans and manipulate every aspect of their existence if they have the opportunity. The astral dreamscape manipulation of human beings is just one aspect of their methodology.

We haven't even discussed the relationship that crystal methedrine and "crank" have with the reptilians. Crystal methedrine and crank have a "Sympathetic Resonance" with the reptilians. Have you ever wondered why many cranksters and speed freaks become involved in acts of mayhem and sexual violence? It is because prolonged use of these kinds of amphetamines leads to the user becoming a "Host" for a reptilian entity.

The entity utilizes the host as a vehicle to wreak all kinds of mayhem and sexual violence and deviance upon society. Indeed crystal meth and crank use is the FAST TRACK TO BECOMING HOSTED BY A REPTILIAN ENTITY. Forget about occultic rituals and group meditations at vortex areas. This is the best (or worst) way to become a full on reptilian host. I have spoken to a mental health professional who told me that many people in the state hospital where this person worked were speed freaks who confidentially spoke of "the spirits" that told them to commit their crimes. Many people who use crank have confessed that their sexual desires became more and more deviant as time went on. They began to visit the child pornography sites on the internet or began to mentally sexualize women in a sadomasochistic and bondage and discipline fashion. I will discuss in more detail below how some abductees can be turned into pedophiles by the reptilians but this is a good opportunity to discuss how the reptilians and their alien vassals keep people addicted to certain forms of substance abuse.

Drugs in the Dreamscape

In my previous writings I alluded to the promotion of substance abuse amongst abductees by the reptilians. Sorcery by any other name is still sorcery. In the strictest sense, Sorcery refers to the use of natural or artificial substances by humans in order to attain a certain level of consciousness as a means of establishing and maintaining contact with non-human intelligences. I will now point out how astral dreamscape manipulation can and will be used to keep abductees of both sexes hooked on various drugs including but not limited to alcohol, crystal methedrine, crank, cocaine and marijuana.

If an abductee has given up alcohol for awhile, he may have dreams where he is drinking booze. Not just drinking beers but guzzling whiskey out of a bottle. The dreamscape environment might be simulated to look like a favorite pub or hangout. During this dreamscape experience, the abductee may be drinking with what appear to be old drinking buddies he hasn't seen in years. He may wake up in the morning with a hangover or a tremendous headache.

The ritualistic aspect of marijuana usage is exploited big time by the reptilians in the astral dreamscape. An abductee will find himself in a dream where he is back in a "party house" he used to hang out at as a teenager for example. Again, the reptilians have scanned his memories and know exactly how to create a reasonable facsimile of this party house. Everything including the Led Zeppelin posters on the wall will be simulated.

The abductee's party buddies as they appeared years ago will be present. Here is where the ritualistic aspect of pot use comes into play. The abductee will find a bag of pot in his pocket. He will pull it out and begin the ritual of removing the seeds and the stems or depending on the quality of the dreamscape pot, pull out little scissors and begin cutting up the buds. Every nuance of the joint rolling or pipe stuffing ritual is re-enacted in minute detail. Finally, the group gathers around in a circle and begins the ritual of smoking the pot and passing it around. The duration of these experiences are the same as if it were being done in real life with each smoker expectantly waiting for their next hit of pot.

When the abductee wakes up shortly thereafter (this is usually done in the late morning so the memory is still fresh) he may actually feel as if he's high on pot for few minutes. The reason he may feel high albeit momentarily is because the reptilians can manipulate brain chemistry in order to simulate the feeling of being under the influence of any drug they choose. They will even inject or otherwise introduce the drug into the sleeping abductee.

Barbara Bartholic actually has cases where the abductee woke up with powder under their noses or remembered seeing grays injecting them and telling them they were being injected with Crank!

For this and many other reasons, crystal methedrine and crank are some of the most difficult drugs to quit. When an individual is on speed they resonate at a different frequency than they ordinarily would. Excess nervous frenetic energy oozes out of the crank user which is assimilated greedily by any and all reptilians that are present in or out of the visible spectrum. Speed makes people paranoid and easier to manipulate. Some crank users begin to develop deviant sexual thoughts and desires and may begin acting on them. In some cases, crank users have found it well nigh impossible to stay off of the child porno sites on the internet.

Crank users are manipulated into becoming violent and unpredictable thus creating an environment of high drama and tension for the other family members in the household. The wives or girlfriends of crank users who have become hosted have described how they suddenly realized that the individual they were living with "was not the same man I married." This comes up so often that it cannot be ascribed merely to some kind of hundredth monkey effect. More like a hundredth reptilian host effect. The woman will notice that her crankster boyfriend or husband has developed extremely deviant sexual desires which he wants to try on "his" mate. "He's not the same man I married." No doubt.

When the speed user decides to quit using the drug, that's when the astral dreamscape manipulation kicks in that is tailor made to keep him on crank or crystal meth. There really is no need to elaborate on it suffice to say that they ensure that the user in the dreamscape is always in a situation where the drug is being used by himself and others or he is always in possession of the drug. Whether he's sitting in a dreamscape parking lot, theater, park or classroom, the former user will always find that he has his drug of choice in his possession. Pretty soon the crank user begins using again in "the real world" and the whole miserable cycle begins anew.

Pedophilism in the Astral Dreamscape

Pedophilism is promoted much the same way as mentioned above. A man may find himself in an erotic dreamscape scenario with a woman. He begins to caress and fondle the woman. He is in a highly aroused state of being. The woman he is with contrives to make the man lie on his back and she mounts him while he is in a fully aroused state. However, the moment the woman mounts him and he penetrates her vagina, the woman shapeshift into a young child. Sometimes the woman will shapeshift into the man's own daughter.

Other times the man may be kissing and caressing a woman and then the woman will shapeshift into a young teenage boy. The man will be taken aback by this sudden change of events and pull back.

Meanwhile a voice in his mind will be encouraging him to continue caressing this young boy. The voice will tell him things like "Go ahead. Its just a dream. Go ahead, no one will know." The male's erogenous zone is being manipulated by the reptilians all the while in order to keep him in this highly aroused state.

In the case of a female abductee, she may be having an erotic dream with her "ideal man" or someone she has a crush on in real life. One thing leads to another and right before she begins performing fellatio on the dream guy, he shapeshift into a young boy or in some cases, into her own son.

There are numerous variations of this form of astral dreamscape manipulation. Suffice it to say that it is all meant to encourage that individual to begin indulging himself or herself in pedophilism.

Heightened Awareness Prevents it from Working

I found this fascinating insight in the classic book "The Art of War" by Sun Tzu which was interpreted and translated by General Samuel B. Griffith USMC Retired.

"All warfare is based on deception. A skilled general must be master of the complimentary arts of simulation and dissimulation; while creating shapes to confuse and delude the enemy, he conceals his true dispositions and ultimate intent. When capable he feigns incapacity; when near he makes it appear that he is far away; when far away, that he is near. Moving as intangibly as a ghost in the starlight, he is obscure, inaudible. His primary target is the mind of the opposing commander; the victorious situation, a product of his creative imagination. Sun Tzu realized that an indispensable preliminary to battle was to attack the mind of the enemy."

General Griffith might as well have been writing about Astral Dreamscape Manipulation by the Reptilians. All of the methods I've mentioned above have been used again and again by the reptilians and their alien vassals. Those abductees who haven't developed nausea or suffered a migraine and have actually finished this treatise now have the information they need to protect themselves from this form of manipulation and behavior conditioning.

Intelligence, especially operational intelligence, is worthless if it doesn't get to the people who have the most need for it. History has proven this time and again. The reptilians come out at night to assault us and manipulate us in the astral dreamscape. To paraphrase Mao:

"When humans sleep, the reptilians attack. When we are awake, the reptilians retreat"

The tide has turned. More and more spiritual warriors are awakening to the reality of the reptilian overlordship. Our ability to fight the reptilians on something approaching equal terms in the astral dreamscape is becoming more evident every night. Myself and the team I am a part of will continue to provide operational intelligence to the abductees with a heightened sense of awareness. I can assure the reader that they will not find this kind of information at a UFO conference unless my colleagues or myself is present. The UFO Research Community is a reptilian stronghold polluted with hive consciousness muppets spewing out hive cliches with boring regularity.

Our team has decided to bypass the mainstream UFO community and take this information straight to the people. So beware all of you Serial Rapetoids in the UFO research community and in the astral dreamscape. We are going to expose you for what you are. The TRUTH to a reptilian hybrid-reptilian hive consciousness muppet is like sunlight to a vampire or kryptonite to Superman. The Truth is anathema to the reptilians. Notice how the Hive Consciousness took over David Icke's bulletin board until it became a propaganda organ for the reptilian-reptilian hive consciousness. It got so bad that Icke had to write a plaintive letter pointing out that he was only exposing the agenda of "the bad

reptilians."

I am not constrained by the need to be politically correct.
